

ABOUT THE CAKE ARTIST

I still recall the days that I would wake up to the smell of my Mother baking wafting throughout the house. Her love of the kitchen and to make people happy was such an inspiration to me. I knew instantly that this is what I wanted to do in life. I made it my ambition to follow this dream. I was lucky enough to study abroad in New Zealand, USA and France learning the art of Hospitality only to come back to my home city of Jakarta and decide I want to focus only on my one real passion - cakes!

I ate my way through many cafes in Indonesia testing the completion. I wanted more, I was hungry to succeed. I attended numerous classes, internet research and a husband that enjoyed testing eventually perfecting many recipes. Shortly after this I opened Cake Empire and things grew from there.

My style is focused, simple, delicious and elegant. Many chefs would never reveal their secret ingredient; However, I will give you a little hint...

"The secret ingredient is always love".
